

PetrochemWorks.com Employer Pages

Showcase Your Company

PetrochemWorks.com is an interactive experience that is a catalyst to feed attraction and increase applications to training and education programs, illuminate industry opportunities, and raise the number of work-ready job seekers.

Thousands of students and job seekers are visiting PetrochemWorks.com to learn more about their future career. Help them learn about your company and the great opportunities you provide. Additionally, your company will be helping to build a vital pipeline of informed, skilled workers.

Featuring your company here is an EHCMA member benefit that will publicize positive social impact and organizational values while exposing your company to thousands of job seekers and students.

What we need from you to get started:

- **One Time Fee: \$750**
- **Completed Employer Information Worksheet:** this form contains information such as:
 - Company Description: Describe your organization, its values, a brief history, etc.
 - Photo: Send us a high-quality photo to display on your page at PetrochemWorks.com
 - Social impact statement: Create public awareness of what you are doing to support the community
 - Company URL and careers page URL
 - Gulf Coast locations

Act now to feature your company on Houston's premier Petrochem career website:

1. Complete the attached **Employer Information Worksheet** or download it from www.PetrochemWorks.com/about-the-site.
2. Contact Anne Dieringer at annedieringer@echma.org to request an invoice. Submit your payment and completed **Employer Information Worksheet** to annedieringer@echma.org.
3. Preview your new webpage on PetrochemWorks.com before providing final approval.
4. Participate in annual site validation to ensure the site and your page stay up to date.

Employer Information Worksheet

PetrochemWorks.com is an interactive experience that will act as a catalyst to feed attraction and ultimately increase applications to training and education programs, illuminate industry opportunities, and raise the number of work-ready job seekers.

One area of the site features Petrochem companies. We profile the company to help the job seekers and students get an idea of who they might work for when they pursue a career in Petrochem. Our intention is to show the company in the best possible light by highlighting their values and even the social impact programs the company might contribute to. See <https://petrochemworks.com/employers> for examples.

Please submit this completed worksheet to annedieringer@ehcma.org along with the invoiced one-time fee of \$750 if you have not already done so.
